REMORA

The Remora is a patented space-saving fan that attaches directly to the flue pipe. It's ideal for appliances that do not suit stove-top fans.

The Remora provides powerful airflow even at lower temperatures.

The versatile Remora clasps itself to most single-walled flue pipes using strong magnetic wings.

Maximum airflow: 120cfm
Height (including blade): 200mm
Width (including blade): 180mm
Depth: (blade to flue pipe): 120mm
Weight: 770g

WHIRLWIND

The newest addition to our heat powered stove fan range has a unique low height design - only 136mm! Giving optimum air flow with its compact twin fan design ideal for tight spaces. Designed to help distribute heat from your woodburner around the room it has a low-start temperature motor - as low as 45°C.

Maximum airflow: 132cfm
Height (including blade): 136mm
Width (including blade): 255mm
Depth: (blade to flue pipe): 95mm
Weight: 592g
